📌 NETWORKING STRATEGY 🎯 Target Audience Tech leaders, CTOs, engineering managers, AI founders, and ambitious junior engineers — your content bridges both ends. 🕒 Engagement Ritual (Daily, 20 min) Comment meaningfully on 5 posts from top tech creators. Add insight, not just "great post!" 🤝 Collaboration Outreach DM 2 creators/week for co-posts or shoutouts. Frame it as value exchange, not ask. 🏷️ Strategic Tagging Tag 1-2 relevant thought leaders per post when genuinely relevant to invite amplification.	📌 IMMEDIATE NEXT ACTIONS (THIS WEEK) ■ 1 Rewrite your LinkedIn headline — include your niche + who you help (not just your job title) ■ 2 Write your "origin story" post — why you work in tech and what you've learned ■ 3 Follow & engage 20 tech creators in your space daily for 7 days ■ 4 Define your 3 content pillars (e.g. AI, career advice, engineering lessons) ■ 5 Set a non-negotiable posting schedule — minimum 3 posts per week
